

Vystar[®] Corporation and Brightway Holdings Announce Successful Trials Completion

Companies Announce Global Launch of the First Exam Glove “Made with Vytex”

ATLANTA, GA – August 10, 2010 -- Vystar[®] Corporation (OTC Bulletin Board:VYST.OB), the exclusive creator of Vytex[®] Natural Rubber Latex (NRL), an eco-friendly patented all-natural raw material that contains significantly reduced levels of antigenic proteins and other non-rubber properties commonly found in natural rubber latex and Brightway Holdings SDN BHD Malaysia, today announced the successful culmination of their Vytex NRL material-use evaluation trials. Conducted at Biopro, one of Brightway’s glove manufacturing facilities in Malaysia, the results pave the way for the manufacture and market introduction of the first exam glove bearing the “Made with Vytex” mark.

William R. Doyle, President and CEO Vystar Corporation, commented, “We are clearly pleased with the successful results of these trials. Brightway Holdings represents one of the world’s largest and most respected specialty glove manufacturers. Given Vytex-based gloves superior barrier protection, tactile sensitivity, comfort and strength, all while being 100% eco-friendly, we are confident that our joint efforts have the potential to both complement and support Brightway’s large distribution network in securing greater market share. We expect to help Brightway further leverage this relationship by providing them additional support in the form of Vystar’s Professional Support Services. This project marks the commencement of what we expect to be a mutually beneficial relationship while also laying the groundwork for further development projects.”

G. Baskaran, Managing Director Brightway Holdings, stated, “Brightway has been motivated and working to bring a premium natural rubber latex into our global exam glove market opportunities, as well as specific lines of gloves for the United States. The U.S market alone consumes over 24 billion gloves each year. Implementing Vytex NRL as a manufacturing material for our exam glove lines will allow us to achieve this goal while keeping the desired properties of latex.” Brightway Holdings SDN BHD started operations in 1991 with two glove lines. Today they produce with 41 glove lines which are marketed and sold in the exam, surgical and industrial glove markets globally.

The global market for exam gloves world-wide uses more than 400,000 metric tonnes of natural rubber latex raw material a year. Vystar Corporation and Brightway Holdings have agreed to go into production with the Vytex NRL –based glove immediately and concurrently start targeted distribution.
