Can Vytex NRL Improve Your Product's Performance?

Test Vytex NRL for yourself. Evaluation samples are available for all Vytex NRL grades. Contact Centrotrade for more information.

Vytex™ NRL

We are excited about our significant progress in advancing Vytex™ Natural Rubber Latex worldwide and want to share our latest news. Read all about it in our first edition of *Vytex™ Vision*.

We're spreading the message that Vytex NRL, with its revolutionary patented "science," has almost undetectable levels of proteins that can cause latex sensitivities. This miraculous material opens the door for a new era of safer products -- the best of latex without the problems. Moreover, Vytex NRL is eco-friendly, odor-free and can be used in more than 40,000 products.

Over the past 12 months we've introduced Vytex NRL at international tradeshows including MEDICA in Dusseldorf, Germany and started trials with 45 manufacturers worldwide who are evaluating Vytex NRL's use in products including exam gloves, surgical gloves, adhesives, condoms, foams, elastic threads and more.

We look forward to keeping you informed and invite your feedback.

Sincerely,
Bill Doyle, President & CEO, Vystar Corp.

Centrotrade Distributes Vytex NRL Worldwide

Vystar has signed an exclusive distribution agreement with Centrotrade to provide full-service distribution, sales and technical support throughout North America and Europe. Manufacturers throughout the U.S., Canada and Europe will benefit from Centrotrade's comprehensive product offering, broad market knowledge and exceptional customer service. Centrotrade Rubber USA and Centrotrade Deutschland are market leaders in the sales and distribution of latex and rubber products.

For samples, pricing or further information contact: North America, Tom Marsh, +1 757-518-2300 or Europe, Chris Passinger, +49 (0)6196/77508-22 or visit www.centrotrade.net.

The eco-friendly, safe alternative to petroleum based synthetics with 40,000 uses

Created by Nature. Recreated by Science.™

Vytex NRL Adds New Grades

Two new grades of Vytex NRL are now available: Vytex low ammonia, or Vytex LA, with virtually no odor and Vytex prevulcanized medium modulus, or Vytex MM, a ready-to-use solution to speed-up time to market.

Vytex LA is ideal for foam applications where odor can be an issue. Medium modulus, high ammonia Vytex MM is well suited for surgical, exam and household gloves, catheters and balloons. Samples are available. Please contact Centrotech for further information. Other prevulcanized grades are available upon request.

Vytex NRL Passes the Test With Flying Colors

A major surgical dressing and bandage manufacturer in recent biocompatibility testing concluded that cohesive bandages produced with Vytex NRL do not induce skin irritation and cause no sensitization dermal reactions.

Protein testing conducted by the manufacturer also verified the low protein status of Vytex NRL in finished products while retaining the positive benefits of natural rubber latex.

Vystar Proposes New ASTM Standard

Vystar recently presented to the American Society for Testing and Materials' Natural Rubber Subcommittee (ASTM D11.22) and is working with the committee to establish a new category of ultralow *Hevea* protein natural rubber latex that describes the attributes of Vytex NRL under ASTM guidelines.

We Want to Hear From You...

What questions do you have? What would you like to know about using or producing a product made with Vytex NRL? Visit our Web site at www.vytex.com and drop us a line at info@vytex.com. We'll include a Q&A Forum in our next issue.
